Service will be that deck passengers will be effectually protected against wind and spray which is certainly something to anticipate.

An Interesting Talk.

Dr. G. W. Parker, his wife, two children and their Malagasy nurse, arrived in this city last Sunday by the Australia, and are now stopping at the Hawaiian Hotel. The representative of this paper called on Doctor Parker last Tuesday and obtained from that gentleman the following interesting information:

For eight years past Doctor Parker has been a government physician in Madagascar, been a government physician in Madagascar, and the service will be the service of the following interesting information:

For eight years past Doctor Parker has been a government physician in Madagascar, been a government physician in Madagascar, and the service will be the service of the serv been a government per fast field of visits. If the V. M. C. A. can scare Mr. Neamann's lecturing talent for to sight, on the subject of "Debt," the community will have a treat.

An item in last week's Press, while complimenting the acknowledged efficiency of Messar. Walker & Treadway, contractors, did unintentional injustice to Mr. Isaac Moore. That gentleman has informed a representative of the Press that it was he who drew the plans for the Spencer building on Nuaman street, and that the inside-folding iron shutters were his own idea, and were imported to this has a mean elevation of 4,000 feet above the coast by Mr. George Lucas.

Mr. A. T. Alkimson will open St. Alban's College on the 17th instant. He has fitted up the lower story of the old school building for use as a school room. It has been inde inside and farnished with a continuous blackboard on all four-walls. Forty-eight standing decks have a subject of the prome. The capital circumstance is the property of the old school building for use as a school room. It has been inde inside and farnished with a continuous blackboard on all four-walls. Forty-eight standing decks have without previous engineering experience, and without groups as a school root, agents. Mr. A. T. Alkimson will peen St. Alban's College on the 17th instant. He has fitted up the lower story of the old school building for use as a school root, and the school building for use as a school root, and the school building for use as a school root, and the school building for use as a school root, and the school building for use the lower story of the old school building for use the lower story of the old school building for use the lower story of the old school building for use as a school root, and the school building for lower story of the old school building for lower story of the old school building for lower story of the old school building for lower s

and Nosibe, off the north-east coast. A tribe surrounding the town of Mojanga, on the coast adjacent to the two French islands, revolted from the authority of the Hovat some time since and claimed the protection of France. It was in nominal enforcements of the rights of that tribe that the French have occupied Mojanga and have captured Tamatave. For the past 200 years both English and French influence has been at work in Madagascar. The former uation has done a great deal of effective missionary work. At the present crisis, however, England has declined to interfere, as have Germany and the United States, although all three governments have expressed sympathy with the special embassies sent them by Queen Ranavalona.
